

● Connected Travel

Why you should never leave home
without a Daisy Mobile solution

Destination – anywhere

Daisy will connect a vast combination of networks – fully backed by a UK-based service management team

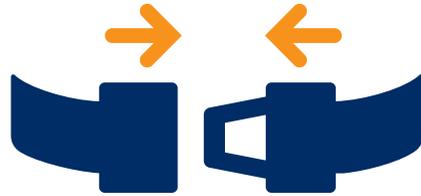

Scale

We are the UK's largest independent business mobile provider and our scale means you can get the right solution at the best value

Onboard – Safety

Daisy Device Management will securely deploy your ICT policies to any device wherever they are

Leg room

Cramped contract not letting you stretch out in comfort? Let Daisy customise one just for you

Inflight menu

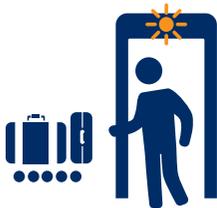

Daisy Device Management (DDM) can provide a simple, tasty, application menu for your admins and users giving better control and easier access

Accredited

We only ever use the best:

- ISO9001
- ISO14001
- ISO27001

Security

Don't get stuck at security – let us fast track you to a secure management solution for all of your estate

Departures

Staff can leave at any time, Daisy can make sure that your data doesn't

Business lounge

Paying for a premium product that no-one is using? Daisy Audit Services can demonstrate efficiencies that deliver effective choices for your organisation

Check in always open

Whatever you need we can provide the technical expertise and hours of support to keep your organisation mobile

Green

Reduce your carbon footprint!

Daisy can help you not only recycle old handsets but turn them into revenue that can help get you the latest models for less
