

BANKING AND FINANCE

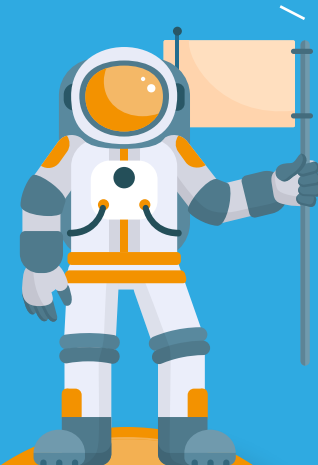

Harnessing technology to address your **four** biggest business challenges

CHALLENGE 1

When your customer say “**jump**”, you’ll already have landed

Most financial services firms agree that:
customer expectations just keep on rising.
Meeting these expectations is a constant challenge!

Instant,
round-the-clock
access to relevant
information

Integrate and
optimise your
systems for
maximum
productivity

Protect
your network,
your data, your
customers’ data

Ultra-
personalised
service that
sets you apart

✓ Cloud and
remote hosting

✓ Inbuilt analytics
and AI

✓ Unified communications
and collaboration

CHALLENGE 2

How do you retain the best talent? (Spoiler: it’s **not** the money)

From data analysts to portfolio managers and top-notch graduates,
recruiting and **keeping** the right mix of skills is vital, but a struggle!

Modern
connected
environment

Maximise
mobile
working

Optimise
workloads
and costs

✓ Cloud-based
collaboration tools

✓ Mobility-as-a-service

✓ AI and process
automation

CHALLENGE 3

Heal the tech generation gap for a smoother, more productive business

Finance sector productivity has nosedived.
Smarter integration between old and new tech will ensure you buck the trend.

Robust, scalable
high performance
network

Secure data
to any device,
any location

Speed of
decision-making
and cost
reduction

Hyper
collaborative,
hyper productive
workforce

High performance,
integrated
environment

Efficient network
transport

✓ Software-Defined WAN technology

✓ Cloud-based apps and hosting

✓ Microsoft Office 365 and Teams

✓ SIP trunking and intelligent call routing

CHALLENGE 4

All threats barred. Detect, protect, respond

Any **data loss** or **downtime** could mean the loss of your customers,
reputation and business.

Robust
system monitoring
and backup

Compliant
storage, retention
and archiving

Secure
environments
to host apps

Instantaneous
security
upgrades

✓ Firewalls, web filtering, anti-virus
✓ Cloud and virtual solutions

✓ Safe haven, work area recovery
and eBackup
