FLEXIBLE SHARE TARIFF IMPROVES BUSINESS PRODUCTIVITY

Overview

Available exclusively on the Vodafone network, Daisy's Vodafone Alliance Tariff has been developed to help businesses reap the benefits of an unlimited plan without the hefty price tag.

With Daisy Vodafone Alliance Tariff, you get unlimited standard calls and texts, with the ability to select and share other allowances across your entire fleet of mobiles. This means you can bulk buy and share your data and also buy international minutes, international SMS and roaming bolt-ons.

Why choose Daisy Vodafone Tariff?

- Unlimited standard calls and texts in UK and EU
- Flat rate per user (no parent/child system)
- Ability to bulk buy additional value bundles
- A wide range of international and roaming options
- Perfect for a growing or an international business
- Travel free/Travel Plus
- MyAccount portal for 24/7 account management and reporting – set alerts, manage devices and control your spend

Alliance Flex

Alliance Flex is a tariff optimiser which puts you in total control by ensuring you are less likely to incur unexpected charges, and you only pay for the bolt on's that are required.

For example:

Customer has 50GB allowance but only uses 24GB in the month, they then have the option to move down to a 25GB bundle to save.

Customer has 50GB allowance but uses 74GB in the month, they then have the option to move up to 100GB bundle to save on out of bundle charges.

The tariff will flex regardless of whether or not they have a bundle for the international/roaming.

Please note you can only flex down one tier in each bolt on category and a UK Data allowance is required unless the whole account is on the unlimited tariff.

Daisy Vodafone Tariff allows you to pay a single, flat rate per user, plus any other options you require. And, because you're buying in bulk, the more you buy, the more cost effective it is. Not only that, expensive 'out-of-bundle' calls/data usage becomes less likely, making it ideal for any cost-conscious, growing or international business.

For points of note, see the last page.

DAISY VODAFONE TARIFF

(ALLIANCE TARIFF)

Points of Note

All connections are subject to standard terms and conditions and prices are based on a 24-month minimum term.

1. All connections are subject to standard terms and conditions, and prices are based on a 24-month minimum term.
2. Fair Usage Policy – Although we do not specifically restrict the number of standard minutes and SMSs available to each end-user, all devices must be used for the purpose; as such, Daisy does not allow SIMs to be used in any equipment which enables the routing of calls or data (including without limitation, text or picture messages) from fixed apparatus or standard devices to mobile equipment, by establishing a mobile-to-mobile call or transmission. Nor does it allow the use of any equipment which enables the sending of bulk SMS, voice or data services. Daisy reserves the right to suspend service without notice, should we believe that such equipment is being used. During the suspension, the liability for any access charges or calls will rest with the customer.
3. Prices and tariffs are subject to change. Daisy will ensure at least 30 days' notice is given before any changes take effect.
4. Early termination fees – These are applicable in all cases where a cease request (PAC or disconnection) has been submitted or the minimum agreed terms have not been completed. This fee is determined based on the pro-rata cost of line rental remaining from the subscription's date of cease up to the end of the agreement, including any required notice periods.
5. Bolt-ons are applied at the account level and not per mobile phone number. As such only one type of each bolt-on is available per account and they cannot be stacked or duplicated. Please also note that at tariff account level, bolt-ons are developed to only work alongside this tariff and as such, if you apply a bolt-on to an account that has other Vodafone tariffs, users will not benefit from the additional allowance but may be charged.

Full Terms and Conditions are available on request.

Have you thought about?

Take advantage of further benefits to complement Daisy Vodafone Tariff:

Unified
Communications

Daisy Device Management services allow you to easily roll out and manage security controls and policies for your mobiles, tablets and laptops across all operating systems.

Cloud

Daisy's eBackup service can protect the data across your mobile estate and deliver a preconfigured replacement.

Operational
Resilience

Daisy WorkPlace turns every employee smartphone into a fully-operational, fully-portable extension of your office IT environment. Cue a whole new level of business mobility and agility.
